Edwin Tony

WEB DESIGNER & DEVELOPER — AVAILABLE WEEKDAYS FROM 3 PM (15–20 HRS/WEEK); WEEKENDS FLEXIBLE

Aruvithura, Kottayam, Kerala | edwinvedon@gmail.com | 9061054750 | edwinton.github.io/edwin-portfolio | github.com/Edwinton | linkedin.com/in/edwin-tony-267977393

PROFILE

Aspiring Software Developer and CS student (AI & ML) specializing in full-stack web development. Passionate about building accessible, high-utility products. Experienced in the full design-to-deployment pipeline, with a focus on integrating modern APIs into clean, responsive interfaces. District-level web design competitor.

TECHNICAL INTERESTS

Currently exploring: Integrating LLM APIs into web workflows.

PROJECTS

OmniShare — Secure Share Portal **(Flask · Python · Tailwind CSS · Gunicorn)**
Built and deployed a full-stack app replacing three paid tools: QR generation, URL shortening with click tracking and 96-hour expiry, and password-protected file sharing — no sign-up required.

LeaveMail — Smart Leave Assistant **(Flask · Python · JavaScript · Web Speech API)**
Built and deployed a mobile-first tool for users who struggle with formal email — four templates, six themes, voice input, and full accessibility support (high contrast, large text, reduced motion).

Portfolio Website **(HTML · CSS · JavaScript · Python)**
Designed and built a responsive multi-page portfolio from scratch, with a Python static site generator that renders pages from JSON — content lives in one place.

The Exemption **(HTML · CSS · JavaScript · Node.js · Supabase)**
Interactive data-broker competition concept on digital privacy and tracking, built with serverless backend on Supabase.

SKILLS

Design — Web design · UI design · Responsive layout · Canva · GIMP · Inkscape

Code — HTML · CSS · JavaScript · Python

Frameworks — Flask · Node.js · Tailwind CSS · Supabase · Gunicorn

Other — Git/GitHub · Static site generation

EDUCATION

Integrated MSc, Computer Science (AI & ML) — Bishop Vayalil Memorial Holy Cross College, Palai

CERTIFICATIONS

- UI/UX Design Programme — Sapphire IQ (Completed a 2-month certification focused on user research, information architecture, and design thinking).

ACHIEVEMENTS

- The Exemption: Developed and presented an interactive digital privacy programme at BVM Holy Cross College to educate peers on data-broker tracking and digital footprints.
- District-level web design competition — competitor.
- ASSET — CS Department Association member (staff & student tech empowerment).
